

Current Status of the observational system

Last update: see bottom right

The project to renew the main axis drive controls (azimuth and elevation) took longer than expected, but the telescope is now back into operation.

Receivers installed at the prime focus at the moment:

Receiver	Status
P210-7	ok
P1700 (UBB)	ok
PM1 (P180mm, P3mm)	ok

Receivers available in the secondary focus:

Receiver	Status
S130	not available
S110	ok
S60	ok, only one horn available
S45	ok
S36	not available
S28	ok
S20	ok
S14	ok
S7	ok
