

Current Status of the observational system

Last update: see bottom right

Despite the Corona pandemic, operations (especially observations) are performed in a nearly regular condition.

Receivers currently installed at the prime focus:

Receiver	Status
P210-7	ok

Receivers currently available in the secondary focus:

Receiver	Status
S130	ok
S110	ok, but beware of RFI
S60	ok, only one horn available
S45	ok
S36	ok
S28	ok
S20	ok
S14	ok
S9	not available any more
S7	ok

The S-band has recently heavily been occupied by RFI (due to LTE). Observations with the 11cm-receiver should use the 8-bank polarimeter or the new spectro-polarimeter (please contact staff).
