

Current Status of the observational system

Last update: 13. April 2017 - AK

The repair of the telescope track has started on April 4 and is going on schedule. It will last till May 12. Until April 18, limited observations will be possible (Azimuth range ~ 220-270 deg), after that no telescope movement at all will be possible.

Receivers available:

Prime focus	
Receiver	Status
P210-7	ok
P200	ok
P10	ok
Secondary focus	
Receiver	Status
S130	ok
S110	ok
S60	ok
S45	change of refrigerator - not available
S36	ok
S28	change of refrigerator - not available
S20	ok
S14	ok
S9	ok
S7	not available due to technical problems

Please note, that the S45 receiver (aka C+-band) is still under commissioning. If you want to use it, please let us know beforehand.

Outlook:

During Jul 5 - Sep 1, our usual summer works will be done (telescope painting / corrosion protection). In this time, the time between 0800-1900 hours on Mo-Fr will be unavailable for observations.
